LIBRARY REPORT.

The trustees of the Andover town library submit the following report for the year ending February 15, 1909.

The number of books issued during the year at the Centre village was 1994; the number of borrowers was 183. At East Andover the number of books issued was 412; the number of borrowers was 52. Total circulation 2406; total number of borrowers, 235. The increase in the number of borrowers and in the circulation is very gratifying.

It is earnestly hoped that somebody from each family in town will take the time to visit the collections at the Center and at East Andover, and see what provision the town is making for the entertainment and instruction of its citizens. There is still need of a much wider circulation, and we are moved to repeat, with increased emphasis, the suggestions made last year: "There have never been better opportunities for every person in town to read good books than exist at the present time. New books are purchased two or three times a year, and the increased value of the collection should be appreciated by an additional number of readers. If each family that now takes out books would persuade one other family to begin to use the library we should soon have in this collection the most valuable asset in town. It is free for all; it is hoped that all will appreciate and enjoy its advantages."
